  - Tournament
- Number of levels : 4 golf courses
- Difficulty levels : 1
- Contest : yes
- Carousel compatibility : yes
  - Stand Alone
- Bandwidth : 200Kb
- Platform : OTV / MOBILE / MHW

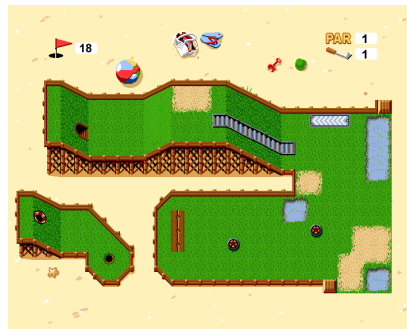

### HINTS & TIPS

The game always offers you the best club based on the shot.

The higher the number is on the club, the less distance your ball will travel.

Improve your golfing skill by playing "Mini Golf " on your TV. Everything seems so real that you will feel almost the same sensations than outdoor golfing... except air.

### Game description

In this golf game you have 4 golf courses, each one contains 9 holes. Like real courses, obstacles are spread up on the fairway. Bunkers, water, and so on that make each hole a real challenge. A Playin' Code is given at the beginning of each new hall and it allows you to continue the game later either on your TV or your mobile.

### How to play

- Select the shot direction by using the left and right arrows.
- Press SELECT to confirm and to shoot.
- Practice Mode :  
This mode lets you practice alone, on whatever hole you choose. You have 99 strokes maximum after each hole. A recap of strokes is displayed after each hole. There is no scoring or points in this mode.
- Tournament Mode:  
This mode permits you to compete with three virtual players on the four courses. You have eight strokes maximum per hole. After each hole, points are given according to the number of strokes taken. The total strokes need to be equal to or under PAR to get to the next course. In the opposite case, the tournament is over (player eliminated).
